

# Leading the Industry in **Solar Microinverter Technology**

## DS3 Series The most powerful Dual Microinverter

- One microinverter connects to two solar modules
- Max output power reaching 640VA, 768VA or 880VA
- Two independent input channels (MPPT)
- CA Rule 21 (UL 1741 SA) compliant
- NEC 2020 690.12 Rapid Shutdown Compliant
- Encrypted Wireless ZigBee Communication
- Phase Monitored and Phase Balanced

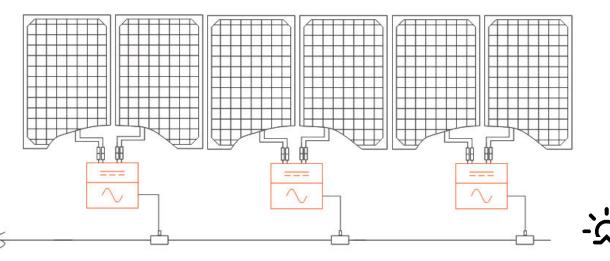

### **PRODUCT FEATURES**

APsystems 3<sup>rd</sup> generation of dual microinverters are reaching unprecedented power outputs of 640VA or 768VA or 880VA to adapt to today's larger power module. With 2 independent MPPT, encrypted ZigBee signals, the DS3-S, DS3-L and DS3 benefit from an entirely new architecture and are fully backwards compatible with the QS1 and YC600 microinverters.

The innovative and compact design make the product lighter while maximizing power production. The components are encapsulated with silicone to reduce stress on the electronics, facilitate thermal dissipation, enhance waterproof properties, and ensure maximum reliability of the system via rigorous testing methods including accelerated life testing. A 24/7 energy access through Apps or web based portal facilitate remote diagnosis and maintenance.

The DS3 series is interactive with power grids through a feature referred to as RPC (Reactive Power Control) to better manage photovoltaic power spikes in the grid. With a performance and an efficiency of 97%, a unique integration with 20% less components, APsystems DS3-S, DS3-L and DS3 are a game changer to residential and commercial PV.

### WIRING SCHEMATIC

| Datasheet   DS3 Microinverter Series | Datasheet | DS3 M | icroinver | ter Series |

| CEC Efficiency          | 96.5% |
|-------------------------|-------|
| Nominal MPPT Efficiency | 99.5% |
| Night Power Consumption | 20mW  |

#### **Mechanical Data**

| Operating Ambient Temperature Range | -40°F to +149°F (-40°C to +65°C)            |
|-------------------------------------|---|
| Storage Temperature Range           | -40°F to +185°F (-40°C to+85°C)             |
| Dimensions (W x H x D)              | 10.3" × 8.6" × 1.6" (262mm X 218mm X41.2mm) |
| Weight                              | 5.7lbs(2.6kg)                               |
| DC Connector Type                   | Stäubli MC4 PV-ADBP4-S2&ADSP4-S2            |
| Cooling                             | Natural Convection - No Fans                |
| Enclosure Environmental Rating      | NEMA 6                                      |

#### **Features**

| Communication (Inverter To ECU) $^{(3)}$ | Encrypted ZigBee                                   |
|--|--|
| Isolation Design                         | High Frequency Transformers, Galvanically Isolated |
| Energy Management                        | Energy Management Analysis (EMA) system            |
| Warranty <sup>④</sup>                    | 10 Years Standard ; 25 Years Optional              |

#### Compliance

Safety and EMC Compliance

UL1741;CSA C22.2 No. 107.1-16;CA Rule 21 (UL 1741 SA); FCC Part15; ANSI C63.4; ICES-003; IEEE1547; NEC2014&NEC2017 Section 690.11 DC Arc-Fault circuit; Protection NEC2014&NEC2017 Section 690.12 Rapid Shutdown of PV systems on Buildings; NEC 2020

 Nominal voltage/frequency range can be extended beyond nominal if required by the utility.
Limits may vary. Refer to local requirements to define the number of microinverters per branch in your area.

③ Recommend no more than 80 inverters register to one ECU for stable communication.
④ To be eligible for the warranty, APsystems microinverters need to be monitored via the EMA portal. Please refer to our warranty T&Cs available on <u>usa.APsystems.com</u>.

APsystems 600 Ericksen Ave NE, Suite 200 Seattle, WA 98110 Tel : 844-666-7035 apsystems.com © All Rights Reserved Specifications subject to change without notice please ensure you are using the most recent update found at web : <u>usa.APsystems.com</u>

Meets the standard requirements for Distributed Energy Resources (UL 1741) and identified with the CSA Listed Mark
